

产品名称 : Kalopanaxsaponin H

同义词 : ——

产品货号 : M31163

CAS Number : 128730-82-5

分子式 : C<sub>47</sub>H<sub>76</sub>O<sub>17</sub>

分子量 : 913.09

化学全名 : ——

产品描述 : Macranthoside A is a triterpenoid glycoside extracted from rehmannia and belongs to the iridoterpenoid synthesis. Macranthoside A has anti-inflammatory, antioxidant, antibacterial and neuroprotective activities, inhibits the production of pro-inflammatory cytokines and inhibits the activation of inflammatory signaling pathways, helps neutralize harmful free radicals, protects cells from oxidative damage, and promotes the survival and growth of neurons. And prevent neuronal cell death caused by oxidative stress or neurotoxic compounds, which has the potential to treat neurodegenerative diseases, cardiovascular diseases and liver damage.
